

# EHRLE Terminal-Series

## MultiTerminal MONO or DUO Version 6 different system combinations

A professional self-service carwash is ideally complemented by the EHRLE MultiTerminal. It also enables the customer to clean and maintain the vehicle interior. Six different programmes offer the customer the optimum choice. The EHRLE MultiTerminal series is available in four versions. The MultiTerminal is installed between the care stations and enables two customers to clean their vehicles at the same time.

Version 4in1 MONO

Version 4in1 DUO
